

33. The emergency support of 32, wherein said plate has a top side having cushioning disposed thereon, and wherein said motor vehicle seat has a seat belt or rescue belt adapted to secure a patient to said solid structure.

34. The emergency support of claim 22, wherein said solid structure comprises a seat shell and a plate, said seat shell having slits adapted for passage of a seat belt, said seat belt having fittings disposed below said slits and adapted for connection to corresponding receivers, and further having a tensioner for tightening said seat belt to secure a patient to said solid structure.

35. The emergency support of claim 34, wherein said seat shell and plate are removably attached to a motor vehicle floor.

36. The emergency support of claim 35 further comprising a rescue belt adapted to allow a patient to be secured to said solid structure.

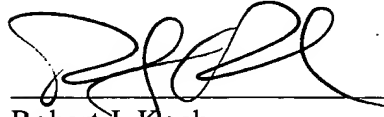

37. The emergency support of claim 35 further comprising a lifting frame having a block and tackle line or lifting a patient secured to said solid structure out of said motor vehicle.

### REMARKS

The amendment to the claims has been made to place the application in better condition for examination. Should the Examiner have any questions, comments, or suggestions, he is invited to contact Applicant's representative at the number indicated below.

Respectfully submitted,

Date: 12/17/01
